40,000 events/month

Omni-channel betting

XLive – the perfect omni-channel solution

XLive is a fully automated and integrated pre-match and in-play betting application. Available for retail operations and web/mobile based business, XLive provides the ultimate content for your successful and sustainable sports betting operations!

With its multitude of configuration and customization opportunities, XLive represents a bespoke betting application. Allow your customers to easily and conveniently place their bets with their own Loyalty Card and to trace and store all transactions. In addition, they can define their own favorite leagues and events to be at all times displayed on top of the betting offer – removing the need to search for their favored team in the extensive betting offer and thus reducing the risk of missing out on their favorite bet!

Irrespective of whether you operate POS betting shops, run a network of terminals or are active in the online betting business, XLive represents the perfect solution for enduring betting pleasure for your customers – and your own business success!

- Adjustable risk settings for all sports and leagues
- Customizable Multi Bonus
- Swipe gestures for easy and swift navigation
- Comprehensive and all-encompassing monitoring and risk-management
- Full Loyalty Card support incl. seamless login
- Cross-platform look and feel
- Multi-feed support
- Customizable odds sheets
- Bankers, Multi-Systems
- Multi-station mode
- Ticket rebuy (Cash Out)
- In-Play availability indicator
- Convenient navigation through sports, leagues and statistics
- Ticket list and account statement within the Loyalty Card dialog
- Omni-channel betting – available for retail, web & mobile clients

The most extensive sports betting offer – all sports, all leagues, all teams, all stats, all odds!

www.betstore.at

The screenshot displays the XLive application interface, which is a comprehensive sports betting platform. The interface is divided into several sections: a top navigation bar with icons for different sports, a left sidebar with a list of leagues and teams, a main content area showing match details and odds, and a right sidebar with a 'Bet Slip' section. The main content area features a table of matches with columns for time, score, odds, and other statistics. The 'Bet Slip' section on the right shows a list of bets with their respective odds and a 'Place Bet' button. The interface is designed to be user-friendly and easy to navigate, with clear labels and intuitive controls.

Betting Plattform BXP

Your unique bespoke sports betting platform!

Our whitelabel platform solution BXP allows you to run your own individual online betting platform. The complete XLive pre-match and in-play betting content, a huge variety of 3rd party provider integration possibilities (payment provider etc.) and the complete range of administrative means make BXP the perfect online betting platform.

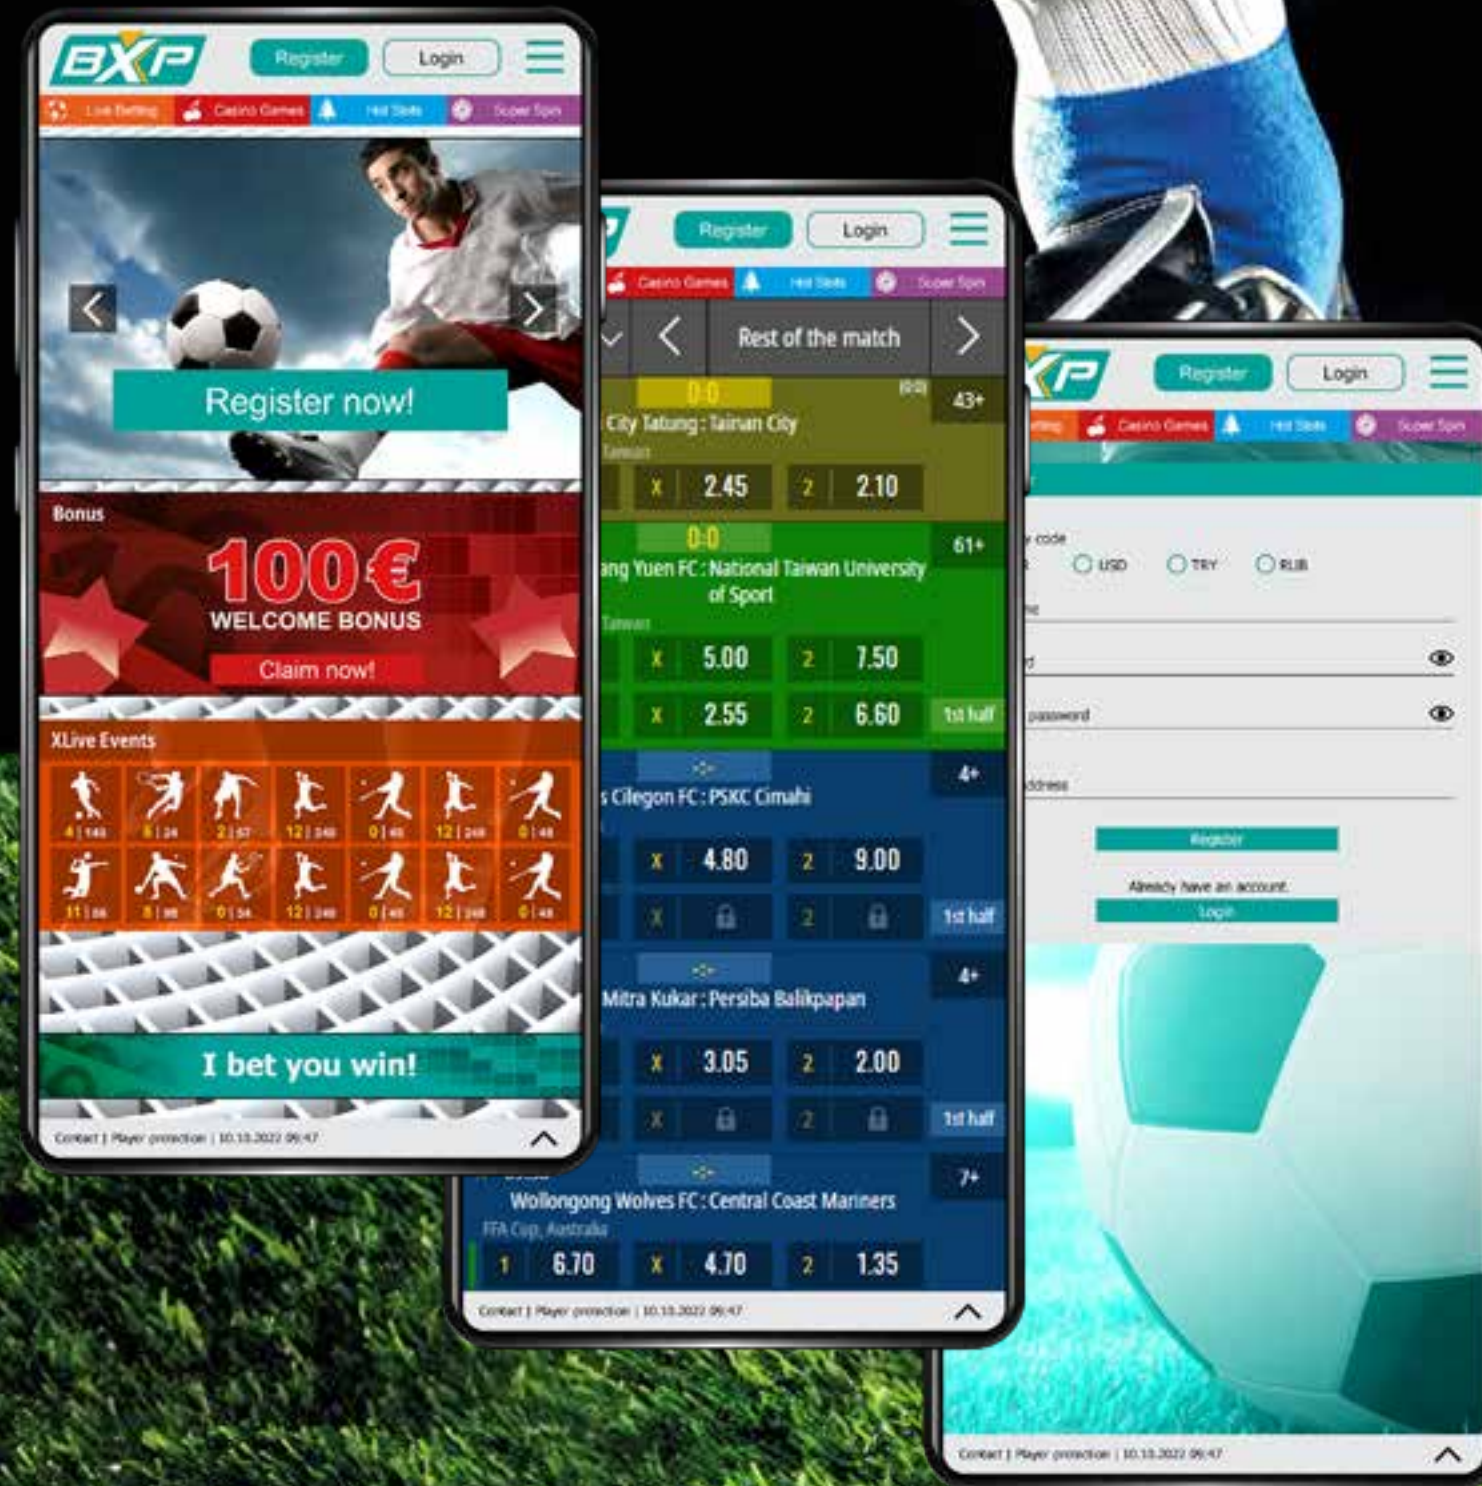

From initial player registration, a wide array of player management and marketing tools to the biggest possible sports betting offer, BXP provides you with the ultimate betting experience!

Functionalities:

- Player management – player information, player login and transaction history, responsible gaming information (limits, restrictions)
- Payment administration – transaction tracking per player and per payment method
- Marketing tools – player lists, bonus management, optional: XML feed
- Reporting – player reports, payment reports, bonus reports
- Content Management System – localization (multi-language)

Features for players:

- Wide range of betting options
- Full set of transaction history
- Easy and safe management of payments
- Safe administration of personal data
- Language and odds format selection options

CBCX Betting Terminal

Combining the NV200 with the Loyalty Card functionality allows for a smooth and efficient operation of your betting business – starting with deposits on their customer account through to the placement of bets and the eventual withdrawal of funds off the Loyalty Card, all transactions can be undertaken directly on the terminal – no personnel is needed to assist!

Terminals with NV200 and an activated Loyalty Card function enable your customers to arrange prompt and direct cash deposits and cash withdrawals:

- Cash deposits on the terminal are automatically added to the customer account
- Cash withdrawals also happen on the terminal – the desired amount is deducted from the customer account and paid out in cash on the terminal

All winnings are added to the account balance on the Loyalty Card immediately and are available for further bet placements within seconds.

Product Features

- 2 FullHD 22” screens with 16:9 resolution (1 ELO touch)
- Modern design, solid metal casting
- Simple access to all relevant components of the terminal
- Optional: Smart Payout System NV200
- Optional: Terminal case branding
- Supports the entire CBCX application portfolio

Advantages for the player

- Increased usability by 22” FullHD screens
- Display of additional betting markets
- Optional: Smart Payout System NV200

Features of the Smart Payout System NV200:

- Processing of nigh on unlimited amounts of banknote denominations
- Collection, validation and storage banknotes for future disbursements
- Jam free, quick payout procedures
- Efficient handling of direct payout procedures
- Maximum security – the Smart Payout System represents a fail-safe and lockable unit

myTicket

Download the myTicket App for free on the App Store and the Google Play Store!

myTicket allows users to retrieve the status of their XLive bet slips online via the myTicket App or on myTicket.cc!

Use the myTicket App on your mobile device to scan the bet slip barcode and to subsequently retrieve all bet slip information and the ticket status. A history of previously scanned bet slips allow for the user to call up past tickets.

myTicket.cc allows to enter the unique bet slip credentials (ticket number and web code) and puts all bet slip information at display.

Check your tickets anywhere, anytime with the myTicket App and myTicket.cc!

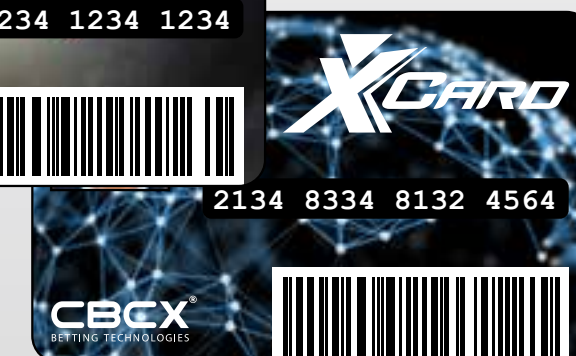

Loyalty card

The Loyalty Card links our application range on all available platforms – one card for complete betting pleasure!

The Loyalty Card contains all relevant player data (registration credentials, current account balance, transaction history; optional: player name and/or photograph) and allows your customers to sign in with their unique Loyalty Card number on any assigned retail and web/mobile unit!

On top of that, the Loyalty Card offers a variety of additional features:

- Upload credit directly from the retail unit onto the user account (cash deposit)
- Disbursement from the Loyalty Card directly on the terminal (cash withdrawal; NV200 required)
- Cashing of CBCX Prepaid Card credit on the user account as an additional cash-free payment method

XLive Integration

XLive is not only available for your retail business. The integration procedures of our products and services onto existing gaming or betting platforms are easy, comprehensive and sustainable.

The programs are conveniently located on your platform, allowing your registered customers to easily call up on our programs and benefit from our services.

Convenient accounting tools and monitoring metrics allow you to trace the movements and transactions of your players, providing you with all the essential statistics and grant easily accountable tracing of all betting and gaming transactions with the web version of our programs.

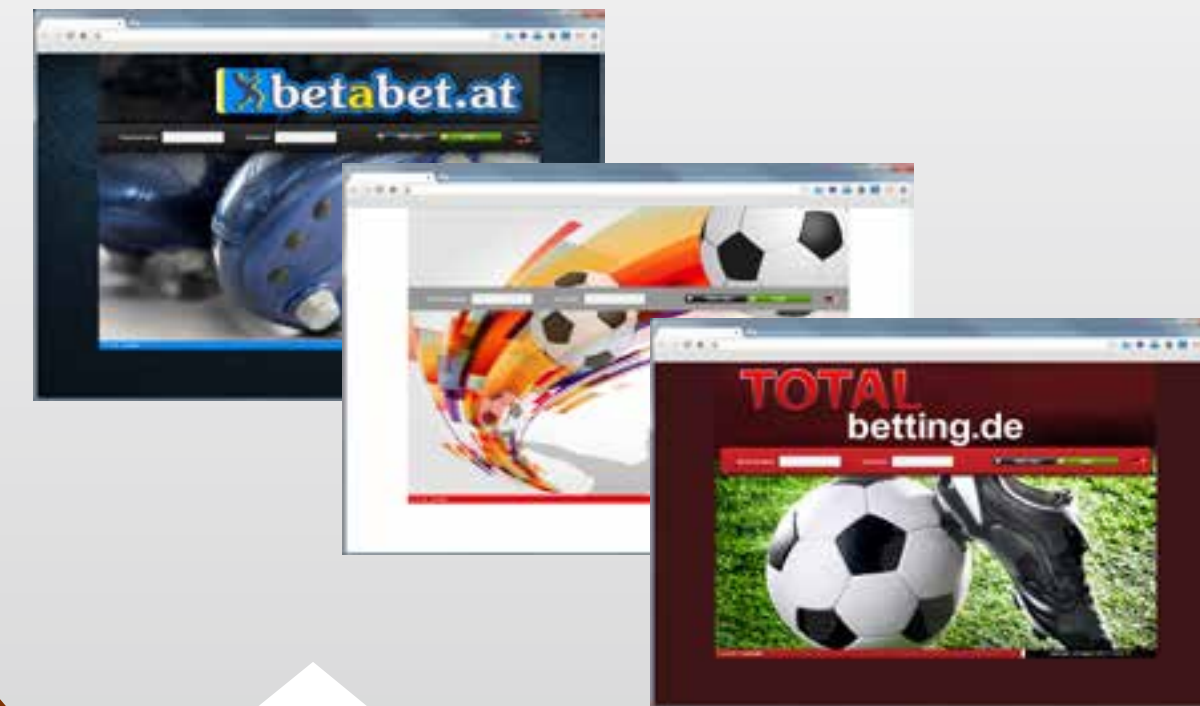

BetStore

BetStore has proven to be the most popular white-label betting site.

Features of BetStore

- Simple and quick handling
- Loyalty Card support
- Easy administration of on-site operations
- Ample range of bonus and rollover configurations
- Wide set of individual user rights
- Player does NOT have to enter personal data
- Individual customization of your BetStore - domain, layout, content
- No installation on your hardware required – the web domain suffices
